

Creator Collective (RLCC)

RealLingo Proposal for Speakers

What Is RealLingo's Creator Collective(RLCC)?

RealLingo's Creator Collective (RLCC) is a flagship program of RealLingo that connects **language and culture content creators** across **China and the Middle East**. RLCC hosts monthly webinars and meet-ups where content creators can exchange insights, build meaningful connections, and learn cutting-edge skills that support their growth and development as creators.

How Do RLCC Sessions Work?

RLCC welcomes content creators of **all follower sizes** and experience levels, as well as working professionals and industry leaders in **digital marketing, public relations, media**, and other related fields. You don't need to be an established influencer to participate. What matters most is your motivation, curiosity, and passion for creating content around language and culture.

Each RLCC webinar lasts approximately **1-2 hours** and follows an online panel format:

1. Welcome & Introduction

Brief introduction of the speakers, participants, and RLCC.

2. Speaker's Talk

Invited speakers share their experiences, expertise, and perspectives on language and culture content creation.

3. Insights Exchange

The moderator leads a structured discussion using **pre-prepared** questions (shared with speakers in advance to allow thoughtful preparation), encouraging speakers to exchange practical insights and experiences.

4. Audience Q&A

Participants have the opportunity to ask questions and engage directly with the speakers.

How to Become an RLCC Speaker?

1. Confirm Your Interest

Send the event coordinator:

- **A headshot**
- **Your preferred name**
- **Your professional title and company/organization**

2. Prepare for the Webinar

One week before the RLCC webinar, please submit:

- **Your proposed speech title**
- **Any relevant materials or information you'd like the audience to know**

You will then receive the pre-prepared discussion questions from the event coordinator, giving you sufficient time to prepare for the panel discussion.

What Is RealLingo?

RealLingo is a decentralized platform that helps people discover language and cultural events nearby, with local communities currently operating in Dammam, Saudi Arabia, and Beijing, China. Our community brings together a fast-growing network of Chinese, Arabic, French, Korean, and Spanish language and culture enthusiasts from diverse backgrounds — connected by a shared passion for exploring languages, cultures, and the world around them.
